"I want to Age Well"

Australia's aged care system is complicated, inequitable and struggling to cope with an ageing population. It needs urgent reform to ensure we all age well.

Reform would put peoples' needs front and centre and follow a community based model to ensure older Australians have a choice about where they receive their care and who delivers it. We can't afford to wait any longer. Sign up below and we'll connect you with thousands of supporters who want choice, dignity and quality care as they age.

Help us reach our goal of 10,000 supporters by May 2012
